I am very happy to meet you through this page. MBCON has stood above the rest in its approach to education and in its pedagogies. Our faculty members are leading experts in their areas of specialization. The ways we teach and the ways our students learn are unique and creative. Consistently, we never hesitated to look into our deficiencies and transform us to an efficient agent of "Serving with a healing touch". Many critics would confirm that the College has substantially contributed to the process of changing the face of nursing profession by providing quality education and thereby enabling the students to become globally competent. We have plans and dreams for the years to come.

With 13 years of history in producing quality nurses, MBCON has achieved many feats and climbed new heights. It has a rich Alumni base that has significantly contributed in the health care sector and has done exceedingly well in all spheres of life and brought name and fame for them as well as to the institution. The Institute takes pride in their achievements.

I can boldly say that we have excelled in every initiative that we undertook and we have stood together in facing the challenges in realizing quality education. I feel happy when the bright and talented students perform remarkably well. However what makes me happier is when a weak student progresses steadily from poor performance to better performance, moving towards excellence.
